

## The Movement film - TODAY

My name is Sharon Walia, I'm a documentary maker from Nottingham. I have made a feature film following the everyday people saving refugees on land, sea and from air. The film also highlights the brutal conditions in Libya and focuses on solutions on how the global refugee crisis could be eased.

The film will be shown nationally on Thursday November 15th at Showcase Cinemas across the UK including Scotland (Glasgow and Paisley - please see link below). I thought the film may interest your staff, service users and volunteers. We are also asking for those who cannot go or as an added gesture to consider buying a ticket for a refugee/asylum seeker - please get in touch if you would like to do this.

Here is a link to buy tickets - you can choose the cinema from the dropdown menu.
