

# Smarter Choices Smarter Places Programme

## News

Paths for All are accepting expressions of interest for the SCSP Open Fund from interested applicants

## Summary

Paths for All are delighted to announce that Transport Scotland is funding them to expand the Smarter Choices, Smarter Places programme to include public, third and community sector organisations. The new Open Fund will be used to encourage more people to walk or cycle as part of their everyday short journeys. The fund will also increase other sustainable travel choices for longer journeys, leading to a happier, healthier Scotland. The fund will create new targeted opportunities for community-led, creative solutions to reduce pollution, increase physical activity levels and improve safety in communities across Scotland. Grants from £5,000 to £10,000 and larger grants of between £10,001 and £50,000. Funding is available for 50% of a total project cost, although 25% of the total project cost can be in-kind contributions.
