

Free Cyber Security Skills for young people

Three FREE week-long residential courses running in Paisley this summer, organised and funded by the National Cyber Security Centre as part of their CyberFirst programme.

Young people can learn cyber security skills and get an insight into cyber security careers. Completion of the courses, which are residential, will earn participants Scottish Credit and Qualification Framework credit points (including a certificate), and the learning can count in part towards completion of the SQA National Progression Awards at SCQF levels 4, 5 and 6.

The three courses are:

- CyberFirst Defenders (aimed at 14 & 15 year olds - SCQF level 4): <https://www.smallpeicetrust.org.uk/courses/cyberfirst-defenders-paisley/>
- CyberFirst Futures (aimed at 15 & 16 year olds - SCQF level 5): <https://www.smallpeicetrust.org.uk/courses/cyberfirst-futures-paisley/>
- CyberFirst Advanced (aimed at 16 & 17 year olds - SCQF level 6): <https://www.smallpeicetrust.org.uk/courses/cyberfirst-advanced-paisley/>
