

LEAP Energy - Prize Survey

LEAP is a Scottish charity which helps people reduce their energy consumption. This helps save them money as well as protecting the environment. We've set up a business 'LEAP Energy' offering a fuel switching service. This helps Social Enterprises, Charities and Companies save money on their fuel bills. The profits from this will help people in fuel poverty and reduce carbon emissions.

Spend 4 minutes in helping us with our research and we'll enter you into a free prize draw where you could win £75! The link is:
