

## **Heritage Lottery Fund - Places of Worship: Inspiring Ideas (New Fund)**

### **News**

The Heritage Lottery Fund (HLF) has opened a new strategic partnership to help secure the future of places of worship.

### **Summary**

This is a new strategic funding initiative that welcomes applications from projects looking to explore innovative ideas and test new approaches to managing, caring for, and funding historic places of worship, of all faiths and denominations. It aims to help make our precious historic places of worship financially resilient, so they are safeguarded for future generations. Successful projects could focus on single places of worship or partnerships working together to explore and trial innovative ideas. Projects could be linked geographically, thematically or by the challenges faced. Grants will be delivered through HLF's existing Resilient Heritage programme.

**Next deadline:** 14 October 2018
