

Closure of the Network Service

Please note that since the establishment of the Network Service in 2013 the employability landscape has changed significantly. As such many of the tasks that are carried out by the Network Service are also now being delivered in mainstream employability services and a decision has now been made to close the Network Service. From this the Network service will now only accept referrals till **5pm on Monday 30th August.**

All clients who access Network will continue to be care managed by Mental Health or Addiction Services as the Network Service works towards closure.
