

ALLIANCE launches webinars

The ALLIANCE will be launching a new initiative called ALLIANCE Live. This will deliver a range of outputs including regular webinars that present the innovative work within health and social care, recording podcasts with panellists who have both professional and lived experience of integrated working.

The first in a series of webinars will be on **Wednesday 26 June 2019 at 9.30 am**. The webinars will look to explore how integration is taking shape through various themes of health and social care. The first of these themes is 'Children and Young People.' We have two panellists presenting on this;

- Susan Walls, Scotland Manager for Contact
- Gillian Meens, Service Manager - Young People and Families at Versus Arthritis

The ALLIANCE Live webinars will be a short 30-minute format with panellists given 10 minutes to present on their own work. This will then be followed by a Q & A session where the audience will be given an opportunity to ask the panel to give further insight. More information on the panellists can be found on the [ALLIANCE website](#)

All you need to participate is access to a computer in your own office or at home. To sign up to our first webinar which will be hosted via Zoom please follow the link:
