

**They are getting their  
toenails cut at a  
Roar Do Feet Clinic**

**The NHS no longer delivers routine  
toenail cutting for the elderly**

Older people often can't reach down, see well enough or have the strength to cut their own nails and need help with this.

If you have ever thought how you could really make a difference to people's lives then please take a minute to consider if this is something you could do?

Full training will be given. We can offer pathways to employment and travel expenses to our clinics. You will be part of a remarkable team where smiles are guaranteed from the people you help.
