

ScotRail - Community Grants Fund Taking Applications for Autumn Projects

Administered by Foundation Scotland, the ScotRail Community Grants Fund provides grants for constituted community groups and charities with an income of less than £100,000 per year that are working in Scotland.

Grants of between £500 and £2,000 can cover at least 25% of the total project cost which must be less under £8,000.

The funding can help with the cost of projects which will make a positive difference in their neighbourhoods.

The projects should address at least one of the following priorities:

- Promoting positive mental health and wellbeing.
- Improving literacy, numeracy and health and wellbeing in primary schools.
- Improving the community's environmental impact at a local level.

Applicants should be able to demonstrate and provide evidence of need for their project.

Applications are currently being accepted for projects that start on or after 1 December 2017.

The next deadline for applications is 25 September 2017.
