

Free ROSPA Child Safety Training for Staff

This training aims to build capacity of local staff to deliver interventions on child safety and unintentional injury to colleagues, parents/carers or community groups. The training will:

- Supply practitioners working with families with an increased understanding and knowledge around the causes of unintentional injuries and reflect on preventative action.
- Give staff the ability to present on home safety information confidently and effectively to colleagues and the general public.

There are 12 spaces for a half day afternoon session on Thursday 21st September. To register for the event please click the link below.
