

Financial Capability Training for staff MAY DATES NOW AVAILABLE

New dates have been released for May for our financial capability train the trainer sessions and I wanted to see if these were of interest to you.

We have two types of training the trainer courses, our 'Money Coach' session is aimed at those working more 1-2-1 with clients while our 'Talking Money' sessions is aimed at those who deliver to groups. Each of these sessions enables attendees; to discuss financial topics, work with a range of resources and to promote financial wellbeing within your services users. It also opens up partnership working with us at Money Advice Scotland, allowing us to share ideas and further resources after training and in the future. Please note that in these sessions will not offer training on benefits or debt advice. Below are the upcoming dates scheduled to take place in our offices in Glasgow:

Talking Money Sessions (for those who work primarily with groups):

- Wednesday 30th May 10:30am

Money Coach Sessions (for those who work primarily 1-2-1 with service users):

- Thursday 31st May 10:30am

Please fill out the booking form with your chosen date from the list on the following link:
