

## **The Wee Ferguslie Journey – a local history**

Is looking to produce a book on local and social history of Ferguslie Park, education, plus other significant factors which impacted local residents. They need volunteers to take on this project who have an interest in Ferguslie Park.

Let's face it. Lots of people are interested in history and lots of people lived or at least have family who did live in Ferguslie Park. In the past there were over 13,000 residents.

The timescale is from 1900 to current date and it will be called 'THE WEE FERGUSLIE JOURNEY'.

If you have an interest in helping out with this project it would be very much appreciated. They are looking for creative people, whether that be writers, photographers or people who have photographs that they wish to share. You may even have much more interesting information that would be beneficial for this project.

Please share, and, pass on to your families, friends and let's get this project started.
