

As the new women's centre now has a name KAIROS which has been a huge success and our forthcoming feel good February taster sessions which have all been the result of input from all how have shown an interest in our last 2 events and our leading local ladies how have been meeting weekly working hard behind the scenes

We are now planning our **next event** which will be in the **Johnstone Town Hall** on **Thursday 8th March between 3.00 – 7.00** times to be confirmed but town hall has been booked over this period

It is International Women's Day we are planning on having a fashion show with a recycling/upcycling theme to it and we would like local partners to be involved and bring info on their service and we are also going to invite local businesses so it can be seen as a real community getting together with this fabulous addition to Johnstone

We are going to host a working lunch on Friday 9th February from 12.30 at our Active Communities base in Quarry Street Johnstone

Would you like to be part of this we would love to see you along on the day to have an input and get involved in the next step of KAIROS

If you can make it can you let me know for lunch purposes and any dietary requirements

If you cannot make that date but would still like to be involved let me know and we can catch up separately or I can send you details after this meeting or if you have any colleagues you think would be interested please share
