

Victim Support Scotland survey

Victim Support Scotland's current Strategic Plan 2018-2021 is coming the end of its first year of implementation, and planning for year two (2019-2020) is now underway.

We want to engage with staff, volunteers and stakeholders to gather feedback on the implementation of the Strategic Plan during the first year, and to help plan future priorities and actions for the organisation.

We have commissioned Wren and Greyhound, a consultancy company, to carry out this engagement process with our staff, volunteers and key stakeholders. As a valued stakeholder your views in helping us to shape our future are very important.

Please can you complete the survey using the link below. No personal data will be gathered. Your individual answers will only be seen by the consultants who will keep your response confidential, though anonymous quotes may be included in the report that will be shared with Victim Support Scotland.

[Stakeholder survey](#) The closing date for survey responses is **Friday 1st March at 5pm.**
