

GRANTfinder

GRANTfinder is a web based search engine.

I have log-in details that take you straight to the search funding home page. From there you go through various drop-down menus selecting such things as, area of work and eligible expenditure. The engine has around 8000 various trusts and funding sources. Most searches I have carried out have come up with 4-5 pages of sources, from minority groups to mental health charities. I usually take around 1 1/2hrs to go through the various options.

Interested in coming along to a session? Then please get in touch with me at:
