

## **Allied Health Professions: Scoping Exercise**

I am currently undertaking a scoping exercise on behalf of NHS Education for Scotland in order to identify Allied Health Professionals (eg physiotherapists, Podiatrists, Occupational Therapists, Speech and Language Therapists, Dieticians etc) who are working in the 3rd sector in Scotland.

This will help us to have a better understanding of the AHP workforce and improve our communication process. It will also allow us to identify any new opportunities for student practice based learning experiences.

I have attached a link below to a short survey for any AHP staff working in the 3rd sector to complete. I would be grateful if you could share this with your contacts.

<https://www.surveymonkey.co.uk/r/HDNC77M>

Any questions, please do not hesitate to get in touch.

Kind Regards  
Joanne Gibson
